

Devicesheet: SCKT3200D2

- Supported Programming Modes: [SPI](#), [Parallel programming](#).
- Supported Debugging Modes: [debugWIRE](#)
- applicable to the following devices:
 - ATmega48, ATmega88, ATmega168 family (and 'P', 'A' and 'PA' variants)
 - ATmega328 (and 'P' variant)
 - ATtiny48, ATtiny88 family

The following pictures shows how to connect these devices to the Atmel AVR Dragon:

Figure 12. SPI programming and debugWIRE debugging
